

**Delaware Volunteer Firefighter's Association  
Annual Conference Policy for Incumbents and Candidates**

The Delaware Volunteer Firefighter's Association (DVFA) represents and advocates the interest of its member companies, both volunteer and career staff, who provide community-based fire, rescue and emergency medical services to the citizens of Delaware 24 hours a day, 365 days a year.

As a part of its mission, the DVFA actively participates in the public policy and legislative process through its Government Affairs function. Although the DVFA is politically active, the Organization is non-partisan and never endorses any candidate for office.

In accordance with the DVFA non-partisan policy, we respectfully request that incumbent office holders and candidates for office comply with the following directives during the Annual DVFA Conference.

- Only incumbents will be invited to official DVFA functions. All invitations will be in writing and will include admission tickets where required.
- No candidates for office will be allowed into ticketed DVFA functions.
- Candidates for office are encouraged to meet our members in the hallways and outside of official sites, but will not be allowed to speak at any official DVFA function.
- No political signs may be posted at any official DVFA event, informational brochures and promotional items are allowed.
